NOTABLE GATHERING

History-Making Meeting of Presidents of New York Banks.

IMPORSANT TTEPS TAKEN

Heinze, Morse and Thomas Interests Said To Have Been Finally Eliminated from Certain of the Clearing House Banks.

New York, 22.—A feeling of contentment and satisfaction prevails in banking circles after the history-making meeting of bank presidents, which succeeded in finally eliminating the Heinze, Morse and Thomas interests in certain of the clearing house banks.

It was generally believed that by this action the cloud that has hung over the financial situation has been dispelled and that a more hopeful feeling would pervade the situation in the stock exchange and on the street.

Aid Pledged to Banks.

Besides choosing new officers for the banks in question and announcing that each and every one was in a solvent condition a most important step was taken. This was the pledging of a fund of $10,000,000 by a score of individual banks to extend aid to banks and render such assistance to meet their deposits as the clearing house committee may think necessary.

Represented $1,250,000,000.

The meeting Sunday was the most notable gathering of bankers that any meeting in recent years has brought together. The deposits of the banks represented amounted to $1,250,000,000. The men, fifteen in all, and every one a practical banker, convened at the clearing house while the bells of old Trinity were ringing for the beginning of church services.

These fifteen men decided upon the measures for eliminating the interests that have been under criticism which measures later in the day were carried out. The methods that have now been eliminated from the local banking situation, it is stated, are a development of the last decade. They consist of the buying of a bank, then putting up the stock representing that control as collateral for funds to buy control of another bank, and continuing the process with banks and trust companies so that the result is a controlling "chain of financial institutions and their deposits."

The crisis, it is declared, has been a serious one but the cure extended is expected to be a complete one.

AUTOS CRASH AT HIGH SPEED.

Two People Were Killed and Eight Seriously Injured.

Saint Sebastian, Spain, Oct 22.—A serious automobile accident took place here Saturday and as a result two people are dead and eight seriously injured.

Two automobiles going in opposite directions came in collision at a point on the road above a dangerous precipice. The wheels of the cars became interlocked and together they rolled over the edge of the cliff and crashed to the rocks below. Don Luiz Zappino and a young woman, whose name has not been learned, were killed. Senor Zappino was secretary of the Royal Racing club. There were ten persons in the two cars, all known in court circles.

Plan Hunt for Roosevelt.

Asheville, N. C., Oct. 22.—President Roosevelt has accepted an invitation to come to this place upon a bear hunt. He will be joined by a large party of well known sportsmen, and a very interesting trip has been planned. It is expected that George Vanderbilt will throw open his famous hunting preserve for the president.

Lively Race for Congress.

Montgomery, Ala., Oct 22.—One hears that the fight for congress in the seventh is to be a warm one, with the present man, John Burnett, on one side, and the administration leader, Colonel John Lusk, of Guntersville, on the other. Both are fighters, have grown up near the soil, and know the territory well and good.

PISTOL HID IN CAKE.

Russian Warden Discovers Plot and Saves Several Lives.

Warsaw, Oct. 22.—Rather an original story comes from the criminal prison here. A bookkeeper, named Schneider, was awaiting his trial, being charged with fraud. As his health was bad his family sent him many little delicacies unknown in the prison fare delicacies which, no doubt, the head warden shared with him.

The other day, amongst other things, a huge iced cake appeared. The warden's children were fond of cake, and so was his wife. They therefore determined to keep half of it for themselves. Their surprise was great when, upon applying a knife to th edainty, it struck just below the icing, and refused to go any further.

"It must be paked to a cinder, said Mrs. Warder. But her good man, suspecting that something worse than careless baking was responsible for the cake's hardness, cut around the sides, and was rewarded by finding a revolver and seven cartridges buried in the paste.

When brought up before the authorities Schneider confessed that he had intended to shoot his guardians and escape from prison before his trial.

"After all," said the warden, pensively, when he told his story, "honesty is not always the best policy. If my wife had not cut into that cake I should have been a dead man by now, for I sleep hard."

ONE KILLED; SIX HURT.

Construction Train on Southern Railway Derailed by a Cow.

Macon, Ga., Oct. 22.—A construction train on the Southern railway in charge of Conductor John Birdsong, of this city, was derailed at Savage Creek, a short distance from Adam's Park Sunday afternoon and the conductor fatally injured. Flagman Birdsong was slightly injured and Bridge Foreman J. H. Askew and four negro laborers were also hurt.

Engine No. 1805, pulling the train, struck a cow on the track and several flat cars loaded with bridge ties were derailed.

The engine remained on the track but when the cars went into the ditch the men and the ties were all piled togetner. The road was blocked until shortly after 6 o'clock.

The injured men were brought to the Macon hospital for treatment.

Conductor Birdsong died while being brought here for treatment.

HE DELAYED THE TRAIN.

Tradesman Lay Down Upon Track and Calmly Smoked Cigar.

Paris, Oct. 22.—A Montmarire tradesman delayed railway traffic for twenty minutes at a suburban station because the officials would not add a smoking carriage to the train on which he was about to return to Paris.

The occupants of the non-smoking compartment objected to the tradesman's cigar, so the tradesman, still puffing his cigar, lay down on the line in front of the engine.

He announced that he would remain there until he had finished smoking. Various officials were summoned to argue with him, and finally, when the train had been delayed twenty minutes and the irate passengers demanded that it proceed regardless of the tradesman, the latter was forcibly removed and arrested.

Leader of Gang Captured.

Mexico City, Oct. 22.—Special dispatches to this city report that the leader of the gang which last week stole $15,000 worth of bullion from the precipitating room of the Guanajato Consolidated Mining and Milling company has been captured after being wounded three times. With him was taken all the stolen bullion. In his confession he implicated about 40 persons, who have since been placed under arrest.

A DESPERATE BATTLE

Nashville Men's Thrilling Encounter With Burglar.

HE WAS FINALLY KILLED

Negro Burglar, Armed with Hatchet, Makes Attack Upon Two Brothers, Who Fought for Their Lives—Both Wounded.

Nashville, Tenn., Oct. 22.—E. J. Schott, a well known druggist here, and Chas. Schott, his brother, had a desperate encounter Monday morning about 2 o'clock with a negro burglar armed with a hatchet.

The burglar was killed, and both of the brothers were injured in the desperate encounter.

Mr. Schott used a winchester rifle, firing three bullets into the body of the burglar, who fought to the death.

Charles Schott was struck on the head twice with a hatchet, and is seriously hurt. E. J. Schott was hit several times with the hatchet also.

PROHIS AT WORK.

Birmingham In Throes of Active Prohibition Campaign.

Birmingham, Ala., Oct. 22.—One week from Monday Birmingham will be in the throes of a prohibition election. It is to decide whether or not whisky shall continue to be sold in a county numbering 200,000.

A lively campaign is in progress. Meetings are being held every night throughout the district; not one or two, but a half dozen nightly, with enthusiastic speakers at each. The interest and enthusiasm is sure to grow during the next week and by October 28, both sides will be prepared for a death grapple.

The meetings of the prohibitionists are somewhat more interesting than those of the other side. These seem to have cornered the orators. Not only are the local speakers of ability in a majority of instances prohibitionists, but they have been reinforced by many of the leading prohibition workers and speakers from Georgia.

Bishop Warren A. Candler, Hon. Seaborn A. Wright, Rev. George Stewart, the evangelist, and Mrs. Mary Harris Armour have lent their voices and presence to the cause in Jefferson county. Judge S. Anderson Roddenbery was invited, but being actively engaged in a contest for congress, he was forced to decline.

MILLIONS FOR SPORT.

Money Spent in Horse Racing in America.

America Something Immense.

New York, Oct. 22.—Some idea of the magnitude of horse racing in America is gained from a tabulated record of the winnings of thirty leading owners made public Monday.

The grand total is $1,706,881. This in itself would be a great sum, but it only represents a very small number of horse owners that have won money on the turf since January 1 to Oct. 1. In the aggregate the winnings of all owners reaches $5,000,000. This sum represents only the amount paid out by racing associations to owners.

The money expended by citizens of this country on the sport of kings, is not included. The sport is well named, for it takes a king's income to maintain it. A conservative follower of the game with a penchant for figures said that $25,000,000 was paid out yearly by race goers to racing associations and bookmakers. Tats represents bets, admission prices and railroad fares to the tracks.

Augustus Belmont to Retire.

New York, Oct. 22.—The Times today publishes a report founded, it says, on apparently good authority that Augustus Belmont will retire from the presidency of the National Civic Federation when the organization holds its conference on trusts this week at Chicago. In that case, it is expected that the office will be offered to ex-Mayor Seth Low, and that he will accept it.

NINE BALLOONS IN RACE.

Four Great Nations of the Earth Represented in Contest.

St. Louis, Mo., Oct. 22.—With brilliant autumn weather and snappy racing currents in the blue depths of the sky, nine mammoth balloons, representing four of the great nations of the world, started Monday afternoon in the slanting rays of the setting sun on a journey which would add an important chapter to the history of aerial navigation.

The contest is officially known as the second international aeronautic cup contest and prize, a massive silver trophy and $2,500 in cash will be awarded to the pilot whose skill and daring land his car the farthest from the starting point.

As each of the balloons is of similar design and material the race will go to the aeronaut—French, English, German or American—who is capable of taking the best advantage of favorable winds and who loses the least ground under adversity.

The race also marks the entry of the United States into active competition with the European nations in a field which has been left almost exclusively to them in the past.

SEARCH FOR LOST SON.

Parents Institute World-Wide Campaign to Locate Man.

Chicago, Oct 22.—Failing after two years' search to find their lost son Harry, in San Francisco, his supposed destination, Mr. and Mrs. Louis F. Nonnast, 1174 Deming place, will begin once a world-wide campaign to locate the young man, now 21 years old. In every large city on all continents advertisements will be inserted in the newspapers seeking information of the wanderer.

None of the ordinary motives that induce boys to flee from unhappy homes or the drudgery of toil actuated Harry Nonnast in his flight. His parents were well to do, he was just graduated from school and seemed to have everything he desired. But his health was not good and he frequently talked of how he might be benefited by the western climate. His father had just about made up his mind to gratify the boy's desire when without warning, the boy disappeared.

MRS. CHADWICK LEFT FORTUNE.

Pass Books Show She Had Never Checked Large Sum Out.

Cleveland, O., Oct. 22.—The startling statement by Nathan Loeser, referee in bankruptcy for Mrs. Cassie L. Chadwick, that he had come into possession of six pass books of Mrs. Chadwick as a depositor in banks in Cleveland and other cities, has been made.

According to one of these pass books, Mrs. Chadwick was a depositor in the Second National of Pittsburg on June 10, [illegible] amount of $305,000, and at intervals during that month for large sums. BIKE RIDERS MUST KEEP OFF WALKS

Are So Reckless That Lives of Pedestrians Are Endangered.

A LADY PAINFULLY INJURED

Mother and Child Knocked Down by Reckless Rider on Alachua Avenue Sunday—Complaints Are Many, and Ordinance Will Now Be Enforced.

The complaint has been so general recently of the recklessness of bicycle riders who have been using the granolithic sidewalks, that Mayor Thomas has decided to enforce the ordinance prohibiting same. Upon several occasions the lives of pedestrians, especially children, have been endangered, and on Sunday afternoon one of the reckless riders ran down a lady and child on Alachua avenue, knocking both down, the mother of the child sustaining painful bruises.

Through the leniency of the officials, who did not care to interfere as long as riders were careful, the ordinance prohibiting the use of sidewalks by bicycle riders has not been enforced; but Marshal Arnow requests The Sun to announce that in future the law will be enforced to the letter, and any person caught riding a wheel on the sidewalk will be accordingly dealt with.

"There are many who would use their wheels cautiously," remarked Marshal Arnow, "but there are still many more who are daring and reckless, and from the complaints that have been made to me they are a menace to the safety of the people. It is for this class that the careful ones must be compelled to suffer, for it is impossible to discriminate in the enforcement of the ordinance."

AILING WOMEN

How Many Perfectly Well Women Do You Know?

MISS GRACE E. MILLER — MRS. W. S. FORD

"I am not feeling very well," "I am so nervous it seems as though I should fly," "My back aches as though it would break."

How often do you hear these significant expressions from women friends. More than likely you speak the same words yourself, and there is a cause.

More than thirty years ago Lydia E Pinkham of Lynn, Mass. discovered the source of nearly all the suffering endured by her sex. "Woman's Ills," these two words are full of more misery to women than any other two words that can be found in the English language. Sudden fainting, depression of spirits, reluctance to go anywhere, backaches, headaches, nervousness, sleeplessness, bearing-down sensations, displacements and irregularities are the bane of woman's existence.

The same woman who discovered the cause of all this misery also discovered a remedy, **Lydia E. Pinkham's Vegetable Compound** made from native roots and herbs holds the record for a greater number of absolute cures of female ills than any other one remedy the world has ever known and it is the greatest blessing which ever came into the lives of suffering women.

Don't try to endure, but cure the cause of all your suffering. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. The following letters prove this:

Mrs. W. S. Ford of 1[illegible] St., Baltimore, Md. writes:

Dear Mrs. Pinkham:—

"For four years my life was a misery to me. I suffered from irregularities, suppression, terrible dragging sensations, and extreme nervousness. I had given up all hope of ever being well again when Lydia E. Pinkham's Vegetable Compound was recommended. It cured my weakness and made me well and strong."

Miss Grace E. Miller, of 1[illegible] Michigan St., Buffalo, N. Y. writes:

Dear Mrs. Pinkham:—

"I was in a very bad condition of health generally; irritable, cross, had headache and suffered from a feminine weakness. Lydia E. Pinkham's Vegetable Compound cured me after all other medicines had failed."

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Ford and Miss Miller it will do for other women in like condition. Every suffering woman in the United States is asked to accept the following invitation. It is free, will bring you health and may save your life.

Mrs. Pinkham's Invitation to Women.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised. Out of her vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Her advice is free and always helpful.

Knelt in Prayer, Then Suicided

New York, Oct. 22.—After having confessed to petty stealing in the office of Dr. David Agan, of Madison avenue, Emma Williams, 20 years old, a servant employed by the physician, marked a verse in a prayer book reading: "Trust in Him when conscious of thy sins," knelt in prayer and then committed suicide.

The body was found hanging from a transom by a piece of clothesline by the physician's wife. The girl had been detected stealing valuable articles and the police were notified. She confessed, but upon her promise to do better the complaint was not pressed and she was retained in her situation.

COMFORTING WORDS

Many a Florida Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Florida readers.

A. Oerting, seaman, of 419 L. street, Pensacola, Fla., tells how to do it. He says: "From my experience with Doan's Kidney Pills I can strongly recommend them to anyone in need of a good medicine for the kidneys. Kidney complaint and backache caused me suffering at intervals for years. The first or second attack I did not mind, but as time went by they grew worse and at times laid me up. I could hardly walk and it was a difficult matter to straighten up after stooping, while the kidney secretions were irregular and unnatural. Doan's Kidney Pills cured me. From personal experience I know that this remedy can be depended upon to fulfill the representations made for it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

SOME POINTED QUESTIONS.

Citizen Wants to Know Several Things We Are Unable to Answer.

Editor Sun: There are several important questions agitating the minds of our people at present, and we would like to get some information from you if possible.

Have you any idea who will be the Democratic nominee for President in 1908?

At what time in the present century will the Government building be completed in Gainesville?

When and where, in your opinion, will the union depot be located?

What will be the rate of taxation in Gainesville after the sewer system is complete, and all streets rocked and sidewalks paved?

The above information will receive the highest appreciation of the undersigned. CITIZEN.

In reply to the above, The Sun must admit that it is at a loss, but will respectfully refer Citizen to some other person in the city more thoroughly posted—and there are numbers of them who profess to know.

BRUIN'S MISDEMEANORS.

"Teddy" Away, Bear Will Play—His Return Awaited.

Port Jervis, Oct. 22.—Taking advantage of the absence of President Roosevelt, who is visiting some of their southern relatives the bears of Pike county, Pa., have been enjoying an old home week celebration. As soon as it became known in Bruinsland that the president had really started south, members of the family who have successfully evade the executive bullet began to pour into the county from all directions.

Joy has been unconfined. As it is always the case where crowds assemble, some of the more boisterous bears have overstepped the bounds of propriety, much to the annoyance of the farmers, the majority of whom have their mail addressed to the attic. So serious has the situation become that the farmers have framed a petition beseeching the president to hurry north and put to rout the horde of undesirable citizens that menaces them.

Following is a partial list of Bruin's misdemeanors:

Friday—Bear jumped into the road way and scared a horse driven by Eugene Kreggs. Animal ran away and deposited Eugene in a creek. Same day two small bears walked into schoolroom in Broadheadsville. The teacher walked up the blackboard and the pupils went through the window. School closed until President Roosevelt's return.

Saturday—Wm. Nearmyer attacked by mother bear and two cubs, near Bartonsvile. Bears got the decision and Bill solved the problem of aerial flight.

Sunday—Big black bear met Deacon Ellis Ridley on his way to church at Cullomtown. Scarcity of breath necessitated elimination of the deacon's sermon.

Monday—William Schneider, of Greeley, was picking apples off the ground in his orchard. While thus engaged a shower of apples bounced off his head. Bill looked up and swears that he saw two bears take deliberate aim and bombard him with his own fruit.

Nearly every automobile party comes back to town with a brand new bear story. Any woman in Pike county who hasn't been hugged by a bear in the last ten days is looked upon with suspicion by her neighbors.

WATCH YOUR TONGUE.

If Furred and Coated, it is a Warning of Trouble to Come.

When it is the morning after the night before, you do not have to look at your tongue to know that the stomach is upset, the head is aching with a dull rhythm, and all the world looks black and dreary.

It may have been lobster Newburgh, Welsh rarebit or some other tasty dish that looked much better at night than the morning after. There is no need to look at the tongue thermometer then for symptoms of trouble. You naturally go to your box of Mi-o-na stomach tablets, and with one of the little relievers bring joy and gladness to the physical system.

The real time to watch the tongue is all of the time. If it is coated with a white fur, or possibly with dark trimmings, even though the stomach does not tell you by the acute pains of indigestion that it needs help, yet the coating shows that you are getting into a bad way and that there is need of Mi-o-na.

Mi-o-na is so positive, so sure, so reliable in its curative action upon the stomach that J. W. McCollum & Co., the local agents, give an absolute guarantee with every 50-cent box they sell to refund the money unless the remedy gives absolute and complete satisfaction.

New White Fly Fungus

BY H. S. FAWCETT
FLORIDA AGRICULTURAL EXP. STATION

A new fungus that gives promise of being very effective in killing the larvae of the White Fly has recently been discovered. It was found by Prof. P. H. Rolfs in two different groves in the Sub-Peninsula. Attention was called to it from the fact that 70 to 90 per cent of the larvae in recently infested trees were found to be dead. This led to further investigation as to the cause of the mortality of the White Fly larvae, with the result that a fungus, not heretofore noticed, was found. On leaves sent in later from one of the same groves, almost every larvae had been killed. The same fungus was found to be present on White Fly larvae sent in on citrus leaves from the Manatee river region a few days later.

This new White Fly parasite, which may be called the "White Fringe" Fungus, appears to belong to a genus known chiefly as Microcera. It is related to the Red Headed fungus (Sphaerostible coccophila) that is parasitic on San Jose Scale and on various citrus scale insects, but its general appearance is very different.

The White Fringe fungus is not at all conspicuous to the unaided eye, as are the Red, Yellow and Brown fungi, but under the hand lens it may be made out. It appears as a very delicate white fringe coming out from the margin of the larvae. If the leaves are picked and allowed to dry the fringe disappears. The dead larvae become white and papery, and later often present a very slight pinkish appearance.

Our experiments, conducted at Gainesville, showed that in two weeks from the time the spores were introduced into white fly infested trees, the fungus was very evident upon previously healthy white fly larvae. Additional experiments in the laboratory showed that the spores of the White Fringe fungus germinate much more quickly than those of either the Red or the Yellow fungus.

How far the use of this fungus will prove to be of practical value in controlling the White Fly is yet to be determined by further experiment on a larger scale. If, however, the fungus continues to be as active as it has recently shown itself to be, it will certainly prove of great value in further checking the ravages of this troublesome pest.

Persons finding this fungus in parts of their groves can distribute it into portions of the grove in which the White Fly is perfectly healthy, by taking leaves containing larvae already infested with fungus, and pinning them into trees where the larvae are not yet diseased. In doing this we would advise that the fungus-containing surface of the detached leaves be pinned in contact with the healthy larvae of the others.

Many and long have been the complaints that no two public clocks in Paris agreed. The placing of an infallible electric clock far up on the Eiffel Tower, last week, shows it was high time for such action.

"Do reductions in freight rates benefit the public?" asks The Railway Age. We should say it does, but The Age tries to prove that reduced rates only benefit the manufacturers and jobbers, not reduced rates on wheat and corn must help the farmer.

Col. Tom W. Harris, for several years one of the leading newspaper men of Florida, is dead at his home in Chattanooga. He was for some time connected with The Ocala Banner after which he published The Ocala New Capitol. Col. Harris was well known in Gainesville, and his many friends here will regret to learn of his death.

A REPUBLICAN PATRIOT.

General Grosvenor of Ohio, who was repudiated by the Republicans of his congressional district before the last election, has returned from a trip to England, and is reported to be "a more intense standpatter on the tariff than he ever was before." That is barely possible, but the General probably feels that his only chance to get a new hold on his district is to keep in close touch with the Protective Tariff League and its trust backers, for a good generous campaign fund has been known to overcome the objections of Republican patriots, if adroitly joined with an appeal "for the old flag and an appropriation," and some Federal appointments, such as postmasters and internal revenue officers, thrown in for good measure.

JOHNSON BOOM SPREADING.

Governor Toole of Montana, when in Chicago a short time ago, reported that his State is for Mr. Bryan, if the Nebraska leader wants the nomination, but that "otherwise Montana is strictly and strongly for Governor John A. Johnson of Minnesota." As Governor Toole is one of the most reliable, able and active Democratic leaders of the Northwest, none is better able to guage public opinion than he is, for he knows all the people of Montana, and is beloved by the Democrats and respected by the Republicans.

ADDITION, DIVISION AND SILENCE.

That redoubtable Republican politician, Mr. Quigg of New York, admits that he once brought "a labor uprising" for $1,500, and "accelerated" various organizations by a judicial application of cash. Quigg is a political friend of Mr. Roosevelt, and Cortelyou and Bliss. Whether they learned the art of "acceleration" from Quigg, or he learned it from them, is a puzzling question.

The determination of the Postmaster-General to make a vigorous campaign for the establishment of an adequate parcels post and a postals saving system is much commended, though there seems to be no little opposition to the scheme in some quarters, and a keen appreciation of such opposition has hitherto prevented any of Mr. Meyer's predecessors in office from going into the fight. There will be some legal obstacles to overcome, and they will, undoubtedly, be made the most of by those opposed to the reform, but there is no doubt that they can be overcome if Congress really desires it. It is expected that a hue and cry will go up from some short-sighted bankers, from some of the small-town merchants, and from the senior senator from New York who, it is expected, will protest against any interference with the monopoly of the express companies. Nevertheless, Mr. Meyer is convinced that great advantage will accrue to the public from these reforms, and he has the sympathy and support of all truly patriotic citizens in his commendable and progressive campaign.

It would appear that the administration has made its grandstand play against the Standard Oil trust, but the beef trust, the tobacco trust, the steel trust and others are scot free. How much is the next campaign fund to be boosted by the trust magnates in return for immunity?

The Big Stick doesn't scare Venezuela a bit, and she talks back at Teddy just as if he did not mean all his threats.

Mr. Taft puts the cart before the horse when he says that Mr. Bryan is afraid to trust the people. This is not true. The misfortune really is, that enough of the people are afraid to trust Mr. Bryan. Like Henry Clay and other great men he is too perennially effusive, poetical, and sympathetic to please the hard-headed and hard-hearted multitude, which prefers doers to talkers.

In buying an automobile you would want to know its "horse power." You would not rest on the assurance that it had the greatest horse-power in the city—you would want to know the figures. Why not require the same definite information about the circulation of advertising mediums?

1,200 BALES OF COTTON.

All Previou Record at Americus Were Broken.

Americus, Ga., Oct. 22.—Twelve hundred bales of wagon cotton approximately were handled at Americus warehouses Saturday, breaking all previous records on wagon receipts for one eday.

Farmers sold readily, and Americus merchants had the busiest day in several years.

Eighteen thousand bales have been handled this far at local warehouses, a fair crop in itself, while railroad receipts exceed 10,000 bales. The local crop is excellent and business is at high tide in Americus this time.

Lest We Forget

Baby is restless, can't sleep at night, won't eat, cries spasmodically. A bottle of White's Cream Vermifuge never fails to cure. Every mother should give her baby White's Cream Vermifuge. So many times when the baby is pale and fretful, the mother does not know what to do. A bottle of this medicine would bring color to his cheeks and laughter to his eyes. Give it a trial. Sold by W. M. Johnson.

SERMONETTES

BY J. MARVIN NICHOLS.

A man is a fool that thinks he can get anything he wants, bandit-fashion.

Don't be a puppy. Lots of fellows are waiting for life's success just like the dog who waits for his master to throw him a bone.

It would take as great a man as good Phillips Brooks to say that no man has come to true greatness who has not felt in some degree that his life belongs to his race and that what God gives him, he gives him for mankind.

In this great land of ours the home is the granite rock of our civilization. The happy fireside is the bulwark of all our freedom. He who would wreck it must be put out of commission. Treat him in the same way you would a dog with the rabies.

It is said in the general defense of men that if women could be immune from the poisoned words of their own sex, the tattle of men could bring no farewell to their fair names. I have noticed that her own have poured the vitriol on the head of Evelyn Thaw.

Sadhu Nihal Sing declares that the love which comes at the bidding of someone—that flits away at the command of somebody—that breaks when outside pressure is brought to bear upon it—that has been obtained under false pretenses—that is not born of the Divine—is tinsel and trash.

Yono Simada, in his treatise on "The Oriental Invasion," said much when he declared that America is the hope of the world, because it takes the raw material of all nations, the uncouth, the downtrodden, and the aspiring, and moulds them into refined and cultured men and women.

Poets may be born, but men are made. Humanity, like iron, in its roughness promises but little. But a bar valued at $5 is worth $12 when made into horseshoes; in needles, $350; in penknives, $3,000; in balance wheels for watches, $250,000. As by these processes iron is increased in value so through long and drastic training are men carried toward the widest possible usefulness.

There is a vast gulf between individuality and personality. Individuality is the sum of the internals—character, power, magnetism. It is that which we are in contradistinction to that which we appear to be. Personality is the sum of the externals—appearance, manners, environment. I know a whole raft of people who have a big supply of personality and a mighty little of individuality. What a man seems to be means very little of what he is in this age.

Blaze your own way however deep the wilderness may be. There is a strange elixir that comes to the man who knows he is a pioneer—be he a pioneer in thought, morals or business affairs. It takes work, of course but the great estates that have been handed from generation to generation were first hewn from the deep and grand forests. It was Lowell who declared that he

"Who waits to have his task marked out
Shall die and leave his errand unfulfilled"

A Certain Cure for Croup—Used for Ten Years Without a Failure.

Mr. W. C. Bott, a Star City, Ind., hardware merchant, is enthusiastic in his praise of Chamberlain's Cough Remedy. His children have all been subject to croup and he has used this remedy for the past ten years, and although they much feared the croup, he and he always felt safe upon learning when a bottle of Chamberlain's Cough Remedy was in the house. His oldest child was subject to severe attacks of croup, but this remedy never failed to effect a speedy cure. He has recommended it to his friends and neighbors and all who have used it say that it is unequaled for croup and whooping cough. For sale by all druggists.

EMPEROR JOSEPH IMPROVING.

Royal Patient Had Good Night' Rest. Catarrhal Symptoms Diminished.

Vienna, Oct. 22—Emperor Francis Joseph passed a slightly better night. His doctors again administered a soporific, enabling the patient to have sufficient sleep and less coughing. The catarrhal symptoms had diminished Monday morning, his strength was more satisfactory and the fever had disappeared.

The Archduchess Maria Valeria, second daughter of the emperor and wife of Archduke Francis Salvador, visited the emperor in the forenoon.

During the whole of Sunday there was a continuous procession of people from Vienna to Schoenbrunn castle, where the emperor is staying.

The heir presumptive, Francis Ferdinand, and his wife, the Princess von Hohenberg, and their children, walked Sunday morning the Sunday crowds to the barracks, where they spent some time watching the animals.

ABOUT OYSTERS

It is a matter of confidence—confidence in the person selling them. If you know they are handled properly, prepared and cooked cleanly, then you are satisfied. For two seasons I have prepared and served you the best Oysters given, and have never had one complaint.

COAL BINS—SHOVELS—TONGS—POKERS

W. M. Barco of Dutton spent Sunday with friends in this city.

R. D. Medlin left yesterday for Williston, where he went to look after his extensive lumber manufacturing interests.

E. W. Rush of McIntosh was trading in the city yesterday. Mr. Rush has been successfully engaged in trucking for several years.

WILSON'S STORE sets the pace and makes the Price. Why pay more elsewhere? We have the goods always at the right price. Mrs. R. Wilson.

Dixon Irvin, a prominent stockman of Oak Lawn, was transacting business in this city yesterday. Mr. Irvin owns one of the most extensive ranches in Marion county.

Mrs. M. Baguley, who has been on a visit to relatives in Springfield, Ill., has returned. She was called home on account of the illness of her son, who is suffering at the Odd Fellows' Sanitarium with typhoid fever, but was gratified to find the young man greatly improved.

In most cases consumption results from a neglected or improperly treated cold. Foley's Honey and Tar cures the most obstinate coughs and prevents serious results. It costs you no more than the unknown preparations and you should insist upon having the genuine in the yellow package. J. W. McCollum & Co.

Attention is called to the change of advertisement of The Gainesville National Bank, which appears elsewhere in this paper. This institution is enjoying a magnificent business for a "youngster," being a few weeks old. The institution has already taken its place among the strongest and most prosperous banks of this section—and the patronage is growing all the time.

Among the visitors to Gainesville yesterday was Hon. John P. Coffin, founder and postmaster of the progressive village of Johnstown, Bradford county. Mr. Coffin, who was in attendance at the State convention of the postmasters of the fourth class held in this city a few weeks ago, was elected delegate to the National Postmasters' Convention, which will convene in Washington in November.
